	Total vehicles passing during sessions = 5179 Number recorded over speed limit = 144							

OP = Operators on the session – (JR) John Reid, (BB) Brian Bowles, (CB) Colin Boylett, (MH) Michelle Heaton (JP) Joyce Phillips, (PB) Phil Bolton

Veh = the number of vehicles passing during session. VRec = speeding vehicles recorded.

%sp = % of passing vehicles speeding. Fast = Fastest speed recorded during session. %ac = % of details that matched those held at DVLA.

Project EDWARD - Project EDWARD is an initiative started in 2016 by TISPOL, the European Police Network, with the aim of trying to achieve a **European Day Without A Road Death**. The project is now UK based and EDWARD now stands for **Every Day Without A Road Death**. During the campaign Police, and other road safety organisations across the UK, carry out as many high profile speed checks and road safety operations as possible. In Sussex the Road Policing Unit (RPU) and other Police Officers and PCSO's carry out many speed and safety checks across the county, this is backed up by Speedwatch groups and other safety organisations in the county operating as many speed monitoring and safety sessions as possible.

The Project EDWARD website <https://projectedward.org/>

A = One vehicle recorded by the group for the third time since sessions restarted in July (details below)

B = One vehicle recorded for the third time in 12 months. (see below) *{Records stay on the system for 12 months and are then deleted.}*

C - D = One vehicle recorded for the second time since sessions restarted in July (details below)

E = One vehicle failed for unknown reason.

F = This session was supported by PCSO's monitoring eastbound traffic from the driveway of Glebe Orchard while we monitored westbound from Parsonage Croft, this had the effect of slowing speeds in both directions.

G = Two PCSO's joined the session.

H = One vehicle failed the DVLA check, possibly an input error.

I = Joined for part of the session by an RPU Officer, he then moved on to Burwash, also the Burwash group had a session in the same time slot, so the combination of hi-vis obviously had the desired effect of slowing traffic.

J = One vehicle recorded for the second time in 12 months

K = Two vehicles recorded for the second time.

L = One vehicle we have recorded twice this month, and it has also been recorded at Shadoxhurst this month.

M = One vehicle recorded for the second time since sessions restarted in July.

N = One vehicle failed the DVLA check, possibly an input error.

XX = Monitored eastbound only because of parked vehicles in the other direction.

TS = This session was also a training session for a new operator, so an accurate count of vehicles could not be achieved.

NK = Not able to record the number of vehicles passing.

Oaks Close – Monitored in both directions.

Club – Monitored in both directions.

Shop – Monitored in both directions.

Parsonage Croft – Monitored westbound only.

Glebe Orchard – Monitored eastbound only.

Eidermere – Monitored westbound only.

Churchyard – Monitored westbound only.

Village Sign – Monitored in both directions.

Records stay on the Operation Crackdown and Community Speedwatch records for 12 months and are then deleted. The Community Speedwatch system displays the details (without registration) of any vehicles recorded by the same group more than once in the previous 12 months, those details are included at the bottom of this summary each month
