

Speedwatch Report

Parish Council 19th January 2023

During December the number of sessions run by the group was very low, due operators availability and the weather conditions.

We ran just 6 sessions during the month, totalling 3 hours, 4 of those sessions did not record any speeding vehicles, 2 of the sessions recorded just one speeding, with the fastest speed recorded 40mph.

Because of the limited activity I have not created the full summary of sessions for December, instead I have added the short version of the months activity below.
